Environmental Literacy Statement

An environmentally literate person is someone who, both individually and together with others:

- Makes informed decisions concerning the environment;
- Is willing to act on these decisions to improve the wellbeing of other individuals, societies, and global environment;
- And participates in civic life.

What is EE?

YOU are EE!

Environmental education (EE) is an organized effort to empower people and communities to work together towards a more ecologically sustainable future through education about our natural and built environments, and how humans can shift their behavior to coexist sustainably.
